RALPH C. DAY

Mayor, 1940

IN MEMORIAM

THE RIGHT HONOURABLE
LORD TWEEDSMUIR
P.C., G.C.M.G., C.H., D.C.L., LL.D., D. Litt.
Governor-General of Canada
Born August 26, 1875. Died February 11, 1940

IN MEMORIAM

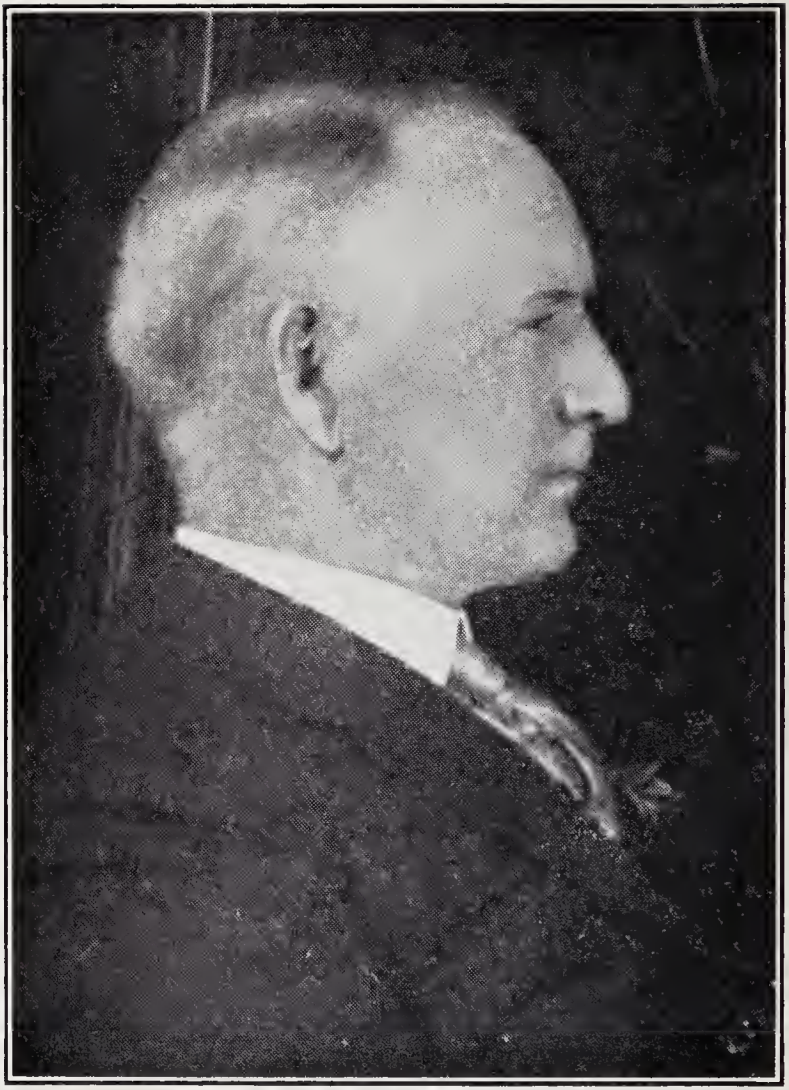
"Know ye not that there is a Prince and a great man fallen this day in Israel?"

2 Sam. 3: 38.

In the inscrutable wisdom of God, the Right Honourable Baron Tweedsmuir of Elsfield, beloved Governor-General and Commander-in-Chief of Canada, departed this life on Sunday, February 11, 1940. His death cast a pall of gloom, not alone over Canada, but the entire English-speaking world, for this great leader of the people, whose every action bespoke the nobleness of his thoughts, was loved by all who knew him, for his kindness and humility, for his background of cultural attainment and his profound knowledge of human values.

While he lived he enriched the life of our Empire with glimpses of a higher life, bringing to us all a nobler conception of the brotherhood of man.

The good that he has done will live after him in the hearts of our Canadian people, for we will remember him always, as one of God's gentlemen, who served, faithful unto death, his God, his King, and his Country.



JAMES W. SOMERS, O.B.E.
CITY CLERK

Extract from a

RESOLUTION PASSED BY THE CANADIAN FEDERATION OF MAYORS AND MUNICIPALITIES

at a Meeting Held in the City of Ottawa on April 12th, 1939

"As Mayors representing the Municipalities of Canada, we are constantly faced with public apathy and the sort of criticism which carries with it little sense of personal responsibility. Such attitudes in the individual greatly increase the difficulty of our task, and multiplied by thousands of people all across the Dominion, they create a state of affairs in Canada which is far from healthy.

"If we are to deal with the problems of our Country, which grow every day more involved, we must have an entirely new mental outlook. Our urgent need in Canada is to cultivate the will to work together. For this, we must find again those fundamental qualities of honesty and unselfishness which are the foundations of a healthy democracy. As Lord Baldwin has said, 'The need of the day is Moral Re-Armament, a programme which builds on what unites people instead of what divides them.'

"Such a programme would bring a whole new effectiveness to municipal life. We all know how in our Councils the selfish interests of a small minority, or even of one individual, can cause endless difficulty and delay. Our task as Mayors must be to lift the level of all proceedings and all policy above personal ambition, prejudice and party interest. If this is done, municipal executives will be able to devote their full energy to a constructive programme. The spirit of Moral Re-Armament in the Council will in turn spread confidence and trust throughout the community. . . ."

TORONTO

THE INDUSTRIAL CENTRE OF CANADA

FROM wigwam to metropolis, the growth of the City of Toronto has been likened unto a modern edition of the "Arabian Nights", for within the comparatively short span of thirty decades, this great City has arisen on the site that was once the meeting-place of Indian tribes. Almost three hundred years ago, lured by the thoughts of lucrative gain from trade in furs, caused by the increasing demand for this commodity in France and England, the first French adventurers explored the possibilities for trade on the northern shores of Lake Ontario, being guided by friendly Indians to their place of meeting, which is now the site of the City of Toronto. The name, Toronto, signifies in the Indian language the "place of meeting".

Long before the advent of the white race, however, the site of the present City of Toronto was a recognized meeting place for Indian tribes, being the termination of the most important of their trails connecting Lake Huron and Lake Ontario. It was the custom of the Indians to make the last great portage between Lake Simcoe and Lake Ontario along trails cut through the almost impenetrable hardwood forests that covered the entire Province at that time.

Toronto—continued

Governor John Graves Simcoe, on his first visit to Toronto on May 2, 1793, chose the site of the City for the Capital of the Province of Upper Canada. While it is a popular tradition that Governor Simcoe was the founder of the City of Toronto, there is foundation for the belief that a certain Captain Gotherman, who was connected with the military engineers at Quebec, was the real founder of this City. Among the Colonial Correspondence sent to England in 1790 was found a complete set of plans of the town "Torento", as it was called by Captain Gotherman, showing a survey of the entire territory surrounded by High Park, Broadview Avenue and Bloor Street. Governor Simcoe, upon his arrival with one hundred men of the Queen's Rangers, looked over the site of the proposed Capital, but was not impressed with its location and decided to locate the headquarters of the Province on the present site of the City of London. However, under pressure from his superiors in Quebec, he reluctantly ordered his soldiers, then encamped near the foot of Bathurst Street, to commence laying out the town. One of the notable achievements of Governor Simcoe was the opening of Yonge Street to Lake Simcoe, which was completed in 1796.

Toronto—continued

On August 26, 1793, the Governor, having learned of the success of His Majesty's Arms under His Royal Highness, the Duke of York, son of the then King George III, changed the name of Toronto to that of York. At this time, news took two months at least to reach Canada from England, depending on good weather and fair winds on the North Atlantic, while a hanging was a public entertainment and thieves were branded in open court.

In 1834, the population of the town having increased to 9,000, it was incorporated as the City of Toronto by Act of Incorporation dated March 6, 1834. Toronto's incorporation was made perpetual by an Act of 1840, so this City has had the longest continuous self-government in Canada. The first elections were held on March 27, when William Lyon Mackenzie, grandfather on his mother's side of the present Prime Minister of Canada, was chosen by his fellow members of Council as the first Mayor of Toronto. The City was divided into five wards, two aldermen and two councilmen being elected from each ward. The City assessment for the year 1834 was $657,592, and the estimated revenue was $10,221. All male householders had the franchise, whether owners or tenants.

Toronto—continued

The development of the City of Toronto, from its incorporation a little more than a century ago, has been progressively rapid until to-day it stands out as the foremost industrial and commercial city in Canada. It is a noted centre of education, with a highly-organized and remarkably efficient system of secondary schools, where every child is assured of a good education at the expense of the ratepayers, who are educated to the advantages of living in a city where their children can so readily take advantage of the exceptional educational facilities provided by the municipality. Toronto is proud of its reputation as a health centre and regards the health of its citizens as one of the most important functions of municipal government. The Local Department of Public Health is recognized as one of the foremost on the Continent and is frequently cited as an example of an efficient, well-organized municipal health service, embracing all phases of health work from the primary corrective control of insanitary conditions to the more interesting aspects of disease prevention measures and health teaching. Toronto is a mecca of tourists, attracted by its beautiful homes and opportunities for enjoyment and sightseeing. Lying midway between New York City and Chicago, it presents an ideal situation as a convention city, being within

Toronto—continued

overnight distance by train from most of the principal cities of Central and Eastern United States. As the gateway to the famed Muskoka regions and Northern Ontario, it attracts tourists from all parts of the world. Toronto is the mail-centre of Canada, and the air-hub of Eastern Canada, with ultra-modern airport facilities comparable with the finest on this Continent. The commercial air line operation now established between Vancouver, Toronto and Montreal, with its early extension to the Atlantic coast, together with the contemplated air service connections with various United States' cities will make Toronto a focal point for air transportation. Here is located the headquarters of the Meteorological Service of Canada, and Canada's largest university, the great University of Toronto. The Canadian National Exhibition, the greatest annual Fair in the world, and the Royal Winter Fair, Canada's finest annual agricultural, live-stock and horse show, are both permanently located in Toronto. The Toronto Stock Exchange handles the largest volume of business in mining stocks in the world, exceeding New York and London in point of volume. This City is noted above all others for the number of telephones used, approximately 215,000, being in operation here, and for usage of long distance service.

Toronto—continued

TORONTO'S CONTRIBUTION TO SCIENCE

Among the important contributions to Science made by the City of Toronto, it is interesting to note that "Standard Time" was invented by Sandford Fleming, a citizen of this City, in 1879. This new system of reckoning time has become legal throughout most of the civilized world. This same citizen had the distinction of designing Canada's first postage stamps, having won a competition announced by the Government of United Canada in the year 1850. He was knighted by the late Queen Victoria in recognition of his outstanding achievement in inventing Standard Time.

The birth of practical electrical traction occurred in 1883, when Messrs. Wright and Vanderpole, two citizens of this City, invented the trolley pole for electric cars. An electric train using this principle was operated during the Toronto Industrial Exhibition of that year, carrying twenty thousand passengers to and from the grounds without mishap.

THE TORONTO OF TO-MORROW

One may find in the past history of the City of Toronto hopeful auguries for the future greatness of the City. Judged by infinity, the present is

only an imaginary line dividing the past and the future. Any observant citizen on his way to business must notice that the face of Toronto is slowly but surely changing. Old landmarks of childhood days are being torn down, giving way to modern skyscraper buildings. Great public buildings and extensive residential development are changing the character of many districts, and the resultant traffic congestion will cause still further changes in our system of highways. Soon, we hope, the slums of our City will be wiped out in the march of social progress, to become only a memory in the minds of our citizens. Enlightened public opinion will demand of future councils that the present haphazard methods of town planning give place to comprehensive plans, carefully prepared by town planning experts, who will lay out great arterial highways with rapid transit facilities capable of whisking the workers to model residential communities located in the quietude of the adjacent countryside. Within the perimeter of our modern city of to-morrow will lie a new and flourishing metropolitan area, far-removed from the enervating atmosphere of its great industrial centre.

TORONTO

"Industry—Intelligence—Integrity"

The Government of the City is carried on under the provisions of The Municipal Act and other related Acts, passed by the Legislature of the Province of Ontario. It is vested in a Municipal Council, consisting of the Mayor and four members forming the Board of Control (all five being elected annually by the citizens at large) and eighteen Aldermen elected annually from the nine Wards into which the City is divided (two Aldermen being elected from each Ward). The Council, as a whole, is the legislative body of the Municipality and carries on its legislative work through **Standing Committees**, viz.: Committee on Works, Committee on Property, Committee on Parks and Exhibitions, and Committee on Legislation. The general duties of all the Committees of the Council are to report to the Council from time to time, whenever desired by the Council and as often as the interests of the City may require, on all matters connected with the duties imposed on them respectively, and to recommend such action by the Council in relation thereto as may be deemed necessary: To examine all accounts connected with the discharge of their duties, and if approved to recommend same for payment. **The Board of Control** is the executive body and as such is

responsible for the preparation of the annual Estimates or Budget and subject to the approval of Council, the regulation and supervision of all matters connected with expenditure, revenue and investments, the sale, renting and leasing of any property belonging to the Corporation, except lands upon the Island, the administration of the Fire Department and the Municipal Abattoir, the awarding of contracts, arrangements for receptions and entertainments of a public character under the direction of the Council, the appointment of officials, the carrying on of public works authorized by the Council, and the general administration of the affairs of the City, except as to the Department of Education and Police, the first being under the control of a Board of Education, consisting of eighteen members, two elected from each of the nine wards into which the City is divided, and two members appointed by the Separate School Board to represent Separate School supporters in certain matters, and the latter under a Board of Commissioners of Police, consisting of the Mayor for the time being, one County Court Judge and one Magistrate.

The Local Board of Health of the City of Toronto consists of the Mayor, the Medical Officer of Health and three resident rate-

payers appointed annually by the Council at its first meeting in every year. The Board functions under authority of the Public Health Act, revised Statutes of Ontario, 1937, Chapter 299.

ARMS OF THE CITY OF TORONTO
Heraldically Described

SHIELD—Quarterly of four. 1. Gules, three Lions passant, gardant in pale, Or; 2. Or a Beaver, ppr. 3. Argent, a garb, proper. 4. Azure, a Steamboat, Or.

COURT OF REVISION

W. Assheton Smith, Commissioner.

The Assessment Rolls are returned and the Court sits to hear appeals against the general assessment of the City upon the following days:

Ward	Date for Return of Roll	Date of Commencing Court of Revision
7	March 1st	March 27th
8	March 19th	April 22nd
1	April 16th	May 20th
6	May 17th	June 17th
2	May 28th	July 4th
5	July 11th	August 12th
9	July 18th	September 3rd
4	August 9th	September 9th
3	August 30th	October 7th

Appeals must be filed within ten days after the return of the Assessment Roll, as stated on the notice of assessment, and must be lodged with the Assessment Commissioner.

The Court also sits from time to time throughout the year to hear appeals in respect of local improvement works, vacancy allowances and business tax adjustments.

The City Clerk is the Clerk of the Court.

AREA OF CITY AND STATISTICS RE STREETS, SEWAGE DISPOSAL, WATER WORKS, ETC., AS OF DECEMBER 31st, 1939.

Area of City, not including portion of land covered by water, is about 34 square miles.

MILEAGE OF STREETS, ETC.:

Streets	575.916
Lanes, approximately	157.751
Paved Roadways (94.5%)	544.191
Unimproved Roadways	31.72
Paved Lanes	44.05
Sidewalks	912.986
Bridges (53)	3.929
Gas Mains	733
Toronto Transportation Commission Street Railway Single Track on City Streets	202.528

SEWERS AND SEWAGE DISPOSAL:

Mileage of Sewers, Sanitary	694.21
Storm	69.58
	Imperial Gallons
Main Sewage Disposal Works Daily Average Flow, 1939	63,993,000
North Toronto Sewage Treatment Works Daily Average Flow, 1939	6,034,000
Total Daily Average Flow, 1939	70,027,000

Area of City and Street Statistics— continued

WATER WORKS:

Mileage of Water Mains, Domestic	733.51
High Pressure Fire System	17.51
Hydrants, Domestic Pressure Fire	7,991
High Pressure Fire	279
Water Main Stop Valves	10,080
Water Main Check Valves	322
	Imperial Gallons
Water Consumed in City and Supplied to adjoining Municipalities in 1939	27,112,100,000
Maximum for One Day (July 8th, 1936)	116,810,000
Water Consumed in City in 1939	25,496,390,000
Average Daily Consumption in City, 1939	69,850,000
Average Daily Consumption per Capita in City (based upon population of 649,123) in 1939	108

BIRTHS, MARRIAGES AND DEATHS

The number of births, marriages and deaths in the City of Toronto during the year 1939, as shown by the Registration returns, is as follows:

Births	10,553
Marriages	8,057
Deaths	7,450

All births and marriages must be registered at the City Clerk's Office, City Hall (Room 21A), within thirty days from the occurrence thereof.

Physicians attending are required to send in notices of births, and parents or occupants of dwelling where births occur are required to register same.

Deaths must be registered at the City Clerk's office (Room 21A, City Hall) or at any police station before a permit to bury can be issued.

Physicians attending are required to certify as to deaths.

Neglect or failure to send in notice in either case renders parties liable to a fine not exceeding $10 and costs.

Number of marriage licenses issued by the City Clerk in 1939, 7,360.

Clergymen officiating are required to register marriages.

Marriage licenses issued during office hours. Office, Room No. 21, Ground Floor, City Hall, west side. Telephone, Adelaide 7171.

DEPARTMENT OF STREET CLEANING

The Department of Street Cleaning was organized on December 17th, 1888, for the purpose of developing a system for the regular collection and disposal of ashes and household waste material, and the cleaning of public streets and lanes.

Since that time, the Department has developed from the single horse cart for the collection of refuse, to the present modern type motor truck, and from the horse-drawn rotary broom to the modern method of motor flushing.

The activities now performed by the Department embrace the cleaning of public thoroughfares, the collection and disposal of ashes and household waste material, the cleaning of catch basins, the oiling of unimproved roadways and the removal of snow.

For collection purposes the area of the city is divided into 25 districts, which are again subdivided into 3 sections, thus permitting a twice-weekly collection to all parts of the city.

200 vehicles are engaged regularly in the collection services, and during 1939 275,000 tons of ashes and 130,000 tons of garbage were collected. The cost of this service amounts to 7c. per collection call, or $7.80 per building per year. There is an average of 3.07 tons of refuse removed from each building annually.

Department of Street Cleaning—continued

All garbage and combustible waste material is disposed of by incineration at three high-temperature garbage disposal plants. The first incinerator was erected in 1917 on the Don Roadway, at Dundas Street. This plant has a capacity of 300 tons per day. In 1923 the second plant was constructed on Wellington Street, near Niagara Street. The capacity of this plant is 400 tons per day. The above plants are manually operated, that is, the material is received on the charging floor, then drawn into the furnaces by hand labour. The Symes Road Incinerator, which was placed in operation in 1934, is the crane-operated type, that is, the material is dumped into a receiving pit, then lifted by two clam-bucket cranes, which discharge the garbage directly into the furnaces.

There are 575 miles of streets, 543 of which are paved and receive regular street cleaning services. During the summer season of 1939, 135,000 cubic yards of litter were removed from the streets, while 9,500 cubic yards of cleanings were removed from the catch basins located on these thoroughfares. Six motor flushers are used nightly in the downtown area and on main thoroughfares. During 1939 the total street mileage flushed amounted to 9,500.

PUBLIC HEALTH

The Administrative Offices of the Department of Public Health are located on the Third Floor, City Hall; telephone, Adelaide 7171.

DISTRICT OFFICES

The Divisions of Medical Services and Public Health Nursing discharge their functions of city-wide health services through 8 District Offices, each under the joint direction of a District Medical Officer and District Superintendent of Nurses. District Offices are located strategically from west to east over the City as follows:

Runnymede—354 Keele St.....JU. 8959
Parkdale—53 Argyle St.....ME. 5709
Hillcrest—643 Markham St.....ME. 8035
Yorkville—135 Davenport Rd.....KI. 4369
University—408 Huron St.....RA. 3116
Moss Park—18 Gifford St.....MI. 8681
Riverdale—281 Broadview Ave.....HA. 2185
Scarboro—299 Main St.....GR. 1144

DEPARTMENT OF HEALTH

Highlights in Toronto's health effort for the year 1939 are to be found in lowered mortality rates for tuberculosis, diphtheria and infants' diseases, all causes of death most directly affected by preventive practice, the control of which is usually accepted as an index of a health department's efficiency.

Public Health—continued

The fall in mortality from tuberculosis for 1939 may be considered remarkable. The rate for all forms of the disease, including deaths of Toronto residents in outside sanatoria, was 30.0 per 100,000 of population, one of the lowest records on this Continent for cities of comparable size to Toronto. This figure is substantially lower than that of 37.4 for 1938 or 36.9 for 1937, representing a 19 per cent. betterment of any record to date. Tuberculosis mortality is to-day but one-half of what it was in 1930 and since 1910 has fallen 77 per cent. At one time chief among the principal causes of death, tuberculosis is now relegated to seventh position.

Diphtheria incidence continues to decline, there being but 7 cases reported in 1939, with one death. In no instance had diphtheria toxoid been previously administered as a protective measure. In the space of 10 years diphtheria has been reduced from 1022 cases and 64 deaths in 1929 to the present figure for 1939 of 7 cases and 1 death, a result due primarily to the active diphtheria toxoid campaign conducted by the Department of Public Health throughout the City in the period mentioned.

Infant mortality records a new low, all-time record for Toronto for the third successive year,

there being but 46.5 deaths within a year of birth, to each 1000 living births as compared with 51.1 deaths in 1938, an improvement of 9 per cent. Infant mortality rates have shown a reduction of approximately 14 per cent. in the last five years and the present figure, 46.5, is 38 per cent. below that of 1930.

These favourable circumstances are all the more noteworthy in view of a rising tendency in the general death rate during the early months of 1939, due to a prevalence of influenza and pneumonia, together with an accompanying increase in mortality from diseases common to older persons. Improvement was noted as the year progressed, resulting in a final general death rate of but 11.0 per 1000 population, a figure but slightly in excess of the 10.8 of the previous year 1938. Toronto's lowest general death rate was 10.1 recorded in 1934. Deaths of non-residents occurring in the City contribute largely to the crude death rate and in 1939 accounted for nearly 16 per cent. of the total mortality.

Toronto's birth rate of 15.8 per 1000 population is lower by 3 per cent. than the 1938 rate of 16.3. With the exception of 1937, when a slight gain was shown, there has been a continuous decline in the birth rate over the past seven years.

Public Health—continued

Maternal mortality recorded a figure of 5.4 per 1000 living births and while somewhat in excess of the exceptionally low figure of 3.8 achieved in 1938, here again deaths of non-residents affect the crude rate. When complete re-allocation according to residence is available, Toronto's resident maternal mortality rate should be close to 4.4 per 1000 living births, a reasonably satisfactory figure compared with previous years.

Reported cases of scarlet fever and measles were unusually high in 1939, with 2248 and 8851 cases respectively. Fatal terminations were recorded in 25 cases of scarlet fever and in 8 cases of measles. There were 24 cases of typhoid and paratyphoid recorded for the year, resulting in two deaths, an incidence of 5 below the average number for the past 5 years. Fourteen of these cases were definitely traced to outside sources of infection. Seventeen cases of poliomyelitis (infantile paralysis) were recorded for the year, well within the normal expectancy for this disease, even though it represented an increase of 8 cases over the number reported in 1938. Not a single case of smallpox was reported for the year, thus maintaining the record of no cases since 1932 and no deaths since 1927.

The aforementioned statistics, briefly presented, serve to indicate the general health

picture of the City at large for 1939, a record generally satisfactory, in the creation of which the Department of Public Health gratefully acknowledges the contribution of effort by all those who, individually or collectively, had a part therein.

CIVIC AMBULANCES

Telephone, Adelaide 6465

The Civic Ambulance Service, under the control of the Department of Public Health, is located at the Coroners' Building, 86 Lombard Street.

A limited service is provided, restricted in scope to answering calls of an emergent nature such as street accidents and similar happenings; the transportation of non-emergent cases to a public hospital when the hospital maintenance of such person is to be at public expense, i.e., a City Order case, and the transportation of all cases of communicable disease. Separate ambulances and staffs are provided for the respective services mentioned.

All calls of whatever nature should be directed to the Coroners' Building, telephone, Adelaide 6465, where the attendant on duty will allocate the call if it is within the above categories, or

otherwise advise the enquirer if service cannot be given.

In case of accident, the patient, if of adult age and conscious, has the right to select the hospital or other destination within the City to which it is desired to be taken. In the case of children or those in an unconscious condition, a physician, if one is in attendance at the scene of accident, will undertake direction of the ambulance. In the absence of a physician, this duty then devolves on any police officer present, and failing either of these authorities the ambulance crew will then take responsibility for removal of the injured person.

In cases where a person is found dead and a physician has not been in immediate attendance, the Chief Coroner's office, 86 Lombard Street—telephone, Adelaide 6466—should be called without delay.

PUBLIC HOSPITALS

The Public Hospitals in the City are located as follows:

Toronto General Hospital, 101 College St.
St. Michael's Hospital, 30 Bond St.
Hospital for Sick Children, 67 College St.
Western Hospital, 399 Bathurst St.
St. John's Hospital, 28 Major St.

Public Health—continued

St. Joseph's Hospital, 1830 Queen St. W.

Women's College Hospital, 74 Grenville St.

Salvation Army Grace Hospital, 133 Bloor St. East.

Toronto East General Hospital, Coxwell and Sammon Avenues (East York).

Mt. Sinai Hospital, 100 Yorkville Ave.

Wellesley Hospital, Homewood Place.

Lockwood Clinic Hospital, 300 Bloor St. E.

Mothercraft Centre, 84 Wellesley St.

OTHER HOSPITALS AND INSTITUTIONS

Riverdale Isolation Hospital, Gerrard St. East and St. Matthews Road.

Toronto Hospital for Consumptives, Buttonwood Avenue (Mt. Dennis).

I.O.D.E. Preventorium, Sheldrake Blvd.

Hospital for Incurables, 130 Dunn Ave.

Mercy Hospital for Incurables 38 Sunnyside Ave.

Home for Incurable Children, 278 Bloor St. E.

Ontario Hospital for Insane, 999 Queen St. W.

Psychiatric Hospital, Surrey Place.

Hillcrest Convalescent Home, Bathurst St. and Davenport Rd.

Christie Street Hospital for Soldiers, 352-390 Christie St.

1940	955,103,105	†35.15 "	32,059,421

*This rate includes the Provincial War Tax of one mill on the dollar.

**Rate made possible by Provincial Government subsidy of one mill: a further subsidy of one-half mill after rate was struck by Council, reduced rate to 34.75 mills.

†Provincial Government subsidy of 1 mill included.

Note—The amount of taxes raised as above set forth may not balance with the amount found by calculating the mill rate on the assessment for any given year. The difference arises from the

fact that a portion of the assessment is liable for school rates only.

PAYMENT OF TAXES

Taxes for 1940 are payable as follows:

1st Instalment, May 10th.
2nd Instalment, June 26th.
3rd Instalment, August 26th.

PARKS AND PLAYGROUNDS

The park system of Toronto, comprising 2,361.536 acres, had its beginning in the dedication by the late Jesse Ketchum to the Village of Yorkville in 1856 of the area known as Ketchum Park, and which came into possession of the City upon the annexation of Yorkville to the City in 1883. Since that time many park areas have been deeded to the City by the Crown, or donated by private citizens, and in all 1,006.85 acres have been so acquired. Much of this development has taken place in the past twenty-five years, during which time 909.44 acres of land have been acquired.

One hundred and three park and playground areas are comprised in the park system, thirty-seven children's supervised playgrounds are operated within the system, in addition to which twenty-eight are operated by the Parks Department upon school grounds during the summer season. During the winter season sixty recreation centres are operated, fifty of which are conducted in school buildings and four in rented gymnasia.

The zoological collections at Riverdale Park, High Park and the Island comprise a great variety of domestic and foreign animals and birds. The animals number 277 in 81 different species; birds comprising 176 species number 651. Many of

the most valuable of these have been donated to the City.

The trees upon the streets of the City, as well as those in the parks, are under the care of the Parks Department. During the past year 669 trees were planted upon the streets; 1,525 were removed; 20,183 were pruned; and 49,847 were sprayed.

The Exhibition Buildings and Grounds, in which the Canadian National Exhibition is held annually, are maintained by the City through the Parks Department.

The parks and playgrounds of the City, with area of each, are as follows:—

Park	Area	
Alexandra Park	6.8	acres
Allan Gardens	10.1	"

TORONTO MUNICIPAL ABATTOIR

This service was inaugurated August 4th, 1914, as a public slaughtering establishment with cold storage (high and low temperature) accommodation. It is essentially to the greatest extent a public health institution, and while the fact of its existence may perhaps at times have had a tendency to regulate the price of meats, the purpose of its establishment was to concentrate the slaughtering of food animals within the City, so that the evils attendant upon the operation of small slaughter houses might be eliminated.

Slaughter House Records, 1939

	Number Slaughtered
Cattle	24,073
Calves	16,257
Sheep and Lambs	23,530

Total	99,774

Earl E. Hunt, Abattoir Commissioner.

Office

Foot of Tecumseth St., Toronto 2.
Telephone, Waverley 9214.

DEPARTMENT OF BUILDINGS

The Department of Buildings has charge of the following:

1. The examination of Plans, and issuing of permits for all buildings.
2. The licensing of Passenger Elevators.
3. The licensing of Dry Cleaning, and Sponging and Pressing establishments.
4. The preparation of plans and specifications and the supervision of erection of Civic Buildings.
5. The inspection and supervision of all signs, Canopies and Fire Escapes over Public Property.

During the past year 49 licenses were issued for the operation of Dry Cleaning Plants and 579 licenses were issued for Sponging and Pressing Establishments including Fur Cleaning Firms.

Licenses were granted for the operation of 1,271 Passenger Elevators.

LOCAL IMPROVEMENT WORKS

When the owners of property on any street or lane desire a pavement, sidewalk, curbing, grading, sewer or water main, or when the property owners in any locality desire the opening widening, extension or diversion of a street or lane, application should be made to the Department of Works for a form of petition to the Council for the work or improvement. The petition issued by the Department contains an estimate of the cost of the work and the estimated rate of assessment per foot frontage. When the petition has been signed by two-thirds in number of the owners representing at least one-half in value of the lots liable to be specially assessed, the Council, with the approval of the Ontario Municipal Board, may proceed with the work and subsequently assess the cost against the lots abutting directly on the work.

If it is found, when the petition is presented, that the names of two-thirds in number of the property owners representing at least one-half in value of the property have not been obtained, and if the Council nevertheless determines, on the recommendation of the Commissioner of Works, that the work is necessary and in the public interest, it may direct, with the approval of the Ontario Municipal Board, that the work be proceeded with unless a majority of the interested

property owners, representing at least one-half in value of the property to be assessed, petition against it within one month after the Council has given notice of its intention to proceed therewith. The foregoing procedure, which is called the "initiative" procedure, may also be followed on the recommendation of the Commissioner of Works, or on the joint recommendation of the Commissioners of Works and Assessment in the case of certain works, when there has been no petition for the improvement.

Under authority of section 8 of the Local Improvement Act, the Council, if it deems a work necessary in the public interest, may proceed therewith, with the approval of the Ontario Municipal Board, notwithstanding any petition to the Council opposed thereto. The vote of the Council to proceed with the work must be a two-thirds vote of the whole Council.

Where the work is a trunk sewer, trunk water main, or the opening, widening, extending, diverting or grading of a street, the Council may by a three-fourths vote of the whole Council assume part of the cost and assess part of the cost against abutting lands and also lands benefited by the work.

WATER RATES

Payment of Rates

Water rates are payable as follows:

GENERAL RATES

District No. 1—Being all that part of the City east of the Don River; rates payable half-yearly on or before each last day of April and October.

District No. 2—From the Don River to and including Yonge Street; rates payable half-yearly on or before each last day of May and November.

7-passenger cars, including gas and oil, per mile.....	.25

RATES TO BE CHARGED FOR MOVING HOUSEHOLD GOODS AND OFFICE FURNITURE

Schedule "A"

Section 32 of By-law 204 of the Board of Commissoners of Police for the City of Toronto, provides in part for the following tariff:

	Rates—Subject to Notes 1, 2 and 3
A. COVERED VANS:	
Up to 600 cubic feet capacity	$2.25 per hour
Over 600 and not over 800 cubic feet capacity	3.00 per hour
Over 800 cubic feet capacity	3.75 per hour
B. OPEN OR TARPAULIN-COVERED TRUCKS:	
With body length not over 10 feet	$1.75 per hour
Over 10 and not over 12 feet	2.00 per hour
Over 12 feet	2.50 per hour

Foregoing rates to include vehicle and driver. When extra men supplied—75c. per hour per man additional.

Rates to be Charged for Moving Household Goods and Office Furniture—continued

C. HORSE-DRAWN VEHICLES:

For one horse wagon.....$1.10 per hour

For two horse wagon..... 2.00 per hour

Foregoing rates to include vehicle and driver.

NOTE 1:

For the purpose of this Tariff "COVERED VANS" shall mean any vehicle, other than an open or tarpaulin-covered truck, or wagon, used for the conveyance of household goods and office furniture, the body of which is completely enclosed on all sides except at the loading entrance thereof.

NOTE 2:

If vans of greater cubic capacity or trucks of greater body length are supplied than are necessary to contain the goods, the rate to be charged will be that of a van of lesser capacity or truck of lesser body length suitable therefor.

NOTE 3:

The above charges to commence from the time the vehicle leaves the office, warehouse or stand to take up load and to continue until its return thereto.

Rates to be Charged for Moving Household Goods and Office Furniture—continued

Lowering and hoisting, one floor.....
$7.00 plus moving charge

Lowering or hoisting, one floor (when not moved).....$5.00

Lowering or hoisting over one floor, each additional floor.....$2.00

Work-cards must be used when operating under this Schedule as provided for in Section 27 of this By-law.

Rates to be Charged for Moving Household Goods and Office Furniture—continued

For other rate, see By-law No. 204 of the Board of Commissioners of Police for the City of Toronto, copy of which may be obtained from License office of City Hall.

BOARD OF EDUCATION

The Board of Education consists of eighteen elected members (two elected from each of the nine wards into which the City is divided), and two members appointed by the Separate School Board to represent Separate School Supporters in certain matters.

The membership by wards at present is as follows:

Ward 1

Leslie H. Saunders, 11 Glebeholme Blvd.
Alex. Stewart, D.D.S., 717 Pape Ave.

Ward 2

William D. Dennison, 150 Carlton St.
E. A. Hardy, O.B.E., D.Paed., 124 Duplex Ave.

Ward 3

Lawrence S. Eckardt, 320 Bay St.
W. Reg. Shaw, 1130 Bay St.

Ward 4

William T. Lawson, 70A Homewood Ave.
Herbert Orliffe, B.A., 225 Richmond St. W.

Ward 5

Harold Menzies, 869 Bloor St. W.
J. P. Frank Williams, M.D., 550 Palmerston Blvd.

Ward 6

Mrs. Fred. G. McBrien, 1447 King St. W.
Frank W. Ward, 1200 Bay St.

Board of Education—continued

Ward 7

Wm. H. Butt, M.D., 316 Keele St.

Mrs. H. E. McCullagh, 67 Colbeck St.

Ward 8

Stanley J. Fenwick, 501 Logan Ave.

Loftus H. Reid, 55 Queen St. E.

Ward 9

C. R. Conquergood, 15 Duncan St.

R. Alan Sampson, B.A., 45 Richmond St. W.

Representatives of Separate School Supporters—

Herbert L. Conlin Arthur Kelly, B.A.

Officers of the Board

E. A. Hardy, O.B.E., D.Paed, Chairman.

C. H. R. Fuller, B.A.Sc., Business Administrator and Secretary-Treasurer.

C. C. Goldring, M.A., D.Paed., Superintendent of Schools and Chief Inspector, Public Schools.

D. Hillis Osborne, B.A., Solicitor.

PENNY BANK

For Schools

Inaugurated April 1st, 1905

The Penny Bank operates in the Schools with the approval of the Board of Education. Deposits are made each Tuesday morning in the class room. Withdrawals can be made by school children at the Head Office of the Bank, corner of Orde and McCaul Streets, between the hours of 3.30 p.m. and 5 p.m., except Saturday, and by parents from 10 a.m. until 5 p.m. Banking hours on Saturdays from 10 a.m. until 1 p.m.

There are over 89,000 open accounts in Toronto and suburbs with a total balance on deposit of over $660,000. About 34% of the pupils make deposits every Tuesday morning. A large number of classes have 100% of the enrolment operating accounts in the Penny Bank.

Hon. President—Colonel H. D. Lockhart Gordon, D.S.O., V.D.

President—M. A. Mackenzie, M.A., LL.D.

Managing Director—H. B. Scandrett.

Assistant Manager—Elizabeth Armstrong,

Telephone, Adelaide 0828.

SEPARATE SCHOOL BOARD

The Board at present is composed of eighteen Trustees, elected by wards, for a term of two years, one Trustee in each ward retiring annually. The membership at present is:

Gerard Beaudoin, 15 Maple Ave.

Fred J. Boland, 120 Lyndhurst Ave.

F. Coates, 6 Fielding Ave.

Jas. F. Coughlin, K.C., 219 Geoffrey St.

F. Crittenden, 252 Westmount Ave.

J. G. Culnan, 209 Indian Road Cres.

Chas. L. Daly, 499 Windermere Ave.

W. T. Donohue, 64 Dixon Ave.

M. L. Doyle, 12 Crestview Road

Elmer T. Duggan, 119 Kendal Ave.

PUBLIC LIBRARIES

The management and control of the Public Libraries of the City are vested in the Toronto Public Library Board, appointed pursuant to the provisions of the Act respecting Public Libraries and Art Schools (Chap. 202, R.S.O. 1914) and composed of the Mayor of the City and eight others, three of whom are appointed by the City Council, three by the Board of Education, and two by the Separate (Catholic) School Board. The persons appointed by the City Council and the Board of Education hold office for three years, and those by the Separate School Board for two years. These members retire in rotation at the end of their respective terms on the 31st of January.

The Board holds its regular meetings on the second Tuesday of each month, and the Libraries and Finance Committee meets on the next preceding Thursday.

The Libraries are maintained by an annual appropriation from the tax rates, under legislative enactment, of an amount not to exceed fifty cents per capita of the population of the City as shown in the returns of the Assessment Department. This appropriation is obligatory, but by a vote of a majority of the members of the Council present and voting the appropriation may be increased to an amount not exceeding one dollar per capita.

Public Libraries—continued

Public Libraries—continued

Dr. F. N. Walker, M.A.,
96 Lawrence Avenue E.,
(Rep. Board of Education).

Chief Librarian:

Charles R. Sanderson, B.Sc.

The Administration Offices are located in the Central Library Building, corner College and St. George Streets. Telephone (switchboard), Kingsdale 1152.

The Downtown Circulating Library is at No. 42 Adelaide Street West.

The Reference Library and the Central Circulating Library are located in the main Library building, situated at the corner of St. George and College Streets. Immediately north of this building there is a well-equipped Boys and Girls Library in the Boys and Girls House. There are seventeen Branch Libraries (including a library for the troops in training in Exhibition Park) and also Stations in eighteen Schools and Settlements, etc.

The cost of the main building at College and St. George Streets, and of the Branches on Yorkville Avenue, Queen Street West, Annette Street, Broadview Avenue, Roncesvalles Avenue, Bathurst Street and Queen Street East was met by funds provided by

Public Libraries—continued

the late Andrew Carnegie. Sites and buildings for the other branch libraries were secured by special appropriations from the City.

The Reference Library is open from 10 a.m. to 9.30 p.m.; the Central Circulating Library from 9 a.m. to 9 p.m.; the Downtown Branch from 8.30 a.m. to 8 p.m.; the remaining branch libraries from 2 to 9 p.m., but closing on Wednesdays. The Boys and Girls Library, on St. George Street, opens at 10 a.m. and closes at 6 p.m.

The main building includes, in addition to the administrative offices and the Reference and Circulating Divisions, the Central Reading Room, with an ample supply of the leading Canadian, British and American newspapers and magazines; the Music Library, a popular branch of the lending system; the Reference collection of the bound volumes of the Canadian, British and American patent specifications; a valuable collection of Government documents, and a Bureau of Clippings, these gathered from current periodicals for reference purposes.

In the Circulating portion of the main building are also housed the Kipling Room, with its special collection of books for boys and girls of High School age, and the John Ross Robertson Collection of engravings, prints and paintings illustra-

tive of early life in Canada (the largest and most valuable collection of Canadian prints in existence). This room is open to the public daily without charge.

LIBRARY STATISTICS, 1939

Adult books issued for home reading	2,689,569
Reference books used	330,254
Boys' and Girls' books used	1,293,655
Books and pamphlets added	70,224
Total number of books and pamphlets in the Libraries	621,230

CANADIAN NATIONAL EXHIBITION

Although the Canadian National Exhibition lays claim to only 62 years of continuous activity, actually it can trace its origin back to 1792 when the settlers along the Niagara River formed the first agricultural association in Upper Canada, known as the Niagara Agricultural Society. This in its turn was the outgrowth of numerous "bees" held by the settlers in the district to perform all kinds of work, and the knowledge thus attained brought such greatly increased efficiency that the before-mentioned society was formed. Governor John Graves Simcoe was keenly interested in it, subscribing liberally to the prize money and encouraging it in many ways.

The Niagara Agricultural Society and those societies which grew from it lived a somewhat precarious existence for some time. In 1801 it was encouraged by premiums and prizes offered for the cultivation of hemp in the Canadas by "the Society instituted in London for the encouragement of Arts, Manufactures and Commerce"; but for many years following the war of 1812, the Society languished, reviving in 1820 to hold a "Cattle Show" in York (Toronto). Government aid was lacking until 1830 when an Act was passed granting an annuity of $400.00 to agricultural societies.

Canadian National Exhibition—continued

The next step was the formation of a Provincial Agricultural Society in 1846. This Society held an annual fair each year in a different community. This was the order of procedure from 1846 to 1878, when a group of farseeing men, convinced that this peripatetic fair was not in the best interests of anybody, persuaded the City of Toronto to sponsor the erection of splendid, permanent, exhibition buildings in the hope of having the fair held annually in that City.

The 1878 Exhibition was a marked success, but in spite of this the Society decided to hold the 1879 fair in a different city. Then it was that the decisive step was made—a permanent annual exhibition was to be held in Toronto independent of the Provincial Agricultural Society. Thus was born in the face of great opposition the Toronto Industrial Exhibition. This Exhibition grew and flourished for many years until in 1912 a Dominion Charter was granted and its name was changed to the Canadian National Exhibition. Its growth has been phenomenal, the total investment in plant and equipment being in excess of $21,000,000.00 with an area of 350 acres.

The Board of Directors consists of the Mayor of the City and seven members of the City Council together with eight representatives of manufac-

turing interests and eight representatives of agriculture, all of whom are elected at the Annual Meeting from among the membership of the Association which latter comprises one hundred and fifty organizations of various kinds.

The Minister of Agriculture of the Province of Ontario is also (ex-officio) a member of the Board. In addition, the past presidents of the Association are directors.

The Canadian National Exhibition is looking forward with confidence and courage to its 62nd consecutive year of operation. Never in its long history of public service has its primary mission, the promotion and stimulation of trade, been more urgently needed, and from Aug. 23rd to Sept. 7th the "World's Greatest Annual Exposition" will be operating smoothly and efficiently in every department.

GROUNDS AND BUILDINGS

Exhibition Park occupies a site of some 350 acres and is fortunate in having a waterfront extending for a mile and a half along the shore of Lake Ontario. A breakwater extending the full length of this waterfront, forms a protected regatta

Canadian National Exhibition—continued

course where practically every aquatic event may be held in a location ideal for competitor and onlooker alike.

From the waterfront the ground rises slightly in terraces revealing Exhibition Park, beautifully landscaped and containing many graceful shade trees, fitting setting for the many stately structures it contains. Built of stone, steel and concrete, these buildings are gems of exposition architecture and are indeed worthy of the high standard of interest and excellence attained by the exhibits displayed in them. Among these magnificent buildings—many of which cost in excess of a million dollars—are the Automotive Building, the Engineering and Electrical Building, the Coliseum, which with its annexes and the magnificent Horse Palace, contains the greatest floor space of any exhibition building in the world; the Food Products Building, the International Pavilion and the National Industries Building.

A comprehensive system of building renovation has been started and in the course of time all the older buildings still capable of years of service, will be completely made over and modernized.

Mention too should be made of the magnificent and acoustically perfect bandshell, one of the

most modern in the world, in which is combined the most recent developments in the field of acoustics and lighting.

As a point of keen interest is the towering flag pole, made from a single stick of Douglas fir, soaring to an erected height of 187 feet.

Mention must be made also of the beautiful lighting of Exhibition Park. After nightfall concealed floodlights and gay standards and pylons make a scene of colourful beauty long to be remembered.

ROYAL AGRICULTURAL WINTER FAIR ASSOCIATION OF CANADA

The Royal Agricultural Winter Fair Association of Canada is a voluntary body, organized in 1919, for the purpose of promoting the higher branches of Agriculture in the Dominion, notably live stock, through the competitive stimulus of an annual exhibition of farm products. Its annual Fair, held in November, now occupies an envied position among agricultural exhibitions on the American Continent, and in its combined wide scope, representative inclusiveness, variety of exhibits, and high standards is undoubtedly unique in any country.

Included in the membership of the Association are representatives of all existing live stock and other agricultural organizations in Canada, as well as of the Dominion and Provincial Governments and the City of Toronto.

The Royal Fair comprises specialized and internationally organized shows for horses, cattle, sheep, swine, poultry, dairying, fruit and flowers, silver foxes, minks, grains, seeds, dogs, cats, tropical and fancy fish, and small pet stock. Entries for the past ten years have averaged 15,000 annually and the total prize lists amount to roundly $100,000 a year.

Royal Agricultural Winter Fair—continued

The first Fair was held in 1922, when the exhibits, contributed from all the nine Provinces of Canada, taxed the accommodation. Between that date and 1931 splendid supplementary buildings to the Central Coliseum and its annexes have been erected. They are all of steel and concrete, steam-heated, and, in part, automatically ventilated, being admirably equipped for winter exhibition purposes. There are now stalling and stabling for 2,000 head of cattle, 2,000 sheep, 2,000 swine, 7,000 poultry; and the magnificent stables have box and open stalls for 1,200 horses.

The central arena, where the brilliant Royal Horse Show is held nightly during the eight-day Fair, has seating and promenade space for 10,000 spectators. It is fitted with the most up-to-date devices for exhibition requirements in sound, light, and ventilation. The Royal Horse Show has justly won for its equestrian standards and performances high repute among American and European horsemen. An attractive feature since 1925 has been the participation of British and foreign army officers' teams, notably for the coveted international trophy. In all, fifteen nations have thus officially taken part in these dashing military competitions at Toronto.

Royal Agricultural Winter Fair—continued

At the outbreak of the War in September, 1939, the Directors of the Royal readily agreed to the suspension of the Fair in November so that the extensive buildings, especially the Coliseum and its two fine annexes, with administration offices, might be used as military quarters; and they were at once utilized for the mobilization of Canadian troops.

THE TORONTO HARBOUR COMMISSIONERS

The Toronto Harbour Commissioners commenced active operations in 1914, and, in co-operation with the City Council and Dominion Government by Agreementand Order-in-Council have transformed the Harbour from a state of inadequacy into one of the most modern and up-to-date harbours on the Great Lakes. It can accommodate the largest vessels passing through the Welland Ship Canal, and now ranks third in cargo tonnage among Canadian Lake and Sea Ports.

In addition to deepening the Harbour and constructing approximately 47,000 lineal feet of wharves, two large waterfront industrial areas have been created out of lands covered by water and non-revenue producing in 1915. These areas have direct access to rail and water transportation and are served by 32 miles of Commissioners' railway tracks, wide paved streets and hydro-electric power at cost; there is also perfect co-ordination of rail, water and highway transportation.

The area of the lands sold, leased or occupied now totals 509 acres, on which are located 103 establishments, which have invested approximately $39,000,000.00 in land, buildings and equipment.

The Toronto Harbour Commissioners—continued

Assessed value of occupied Harbour properties, 1939		$21,596,683.00
Assessed value of all Harbour properties, 1912		1,976,804.00
Increase due to development of land covered by water and non-revenue producing in 1915		$19,619,879.00
The City of Toronto advanced to The Harbour Commissioners under its guarantee of bonds for payment of Interest and Sinking Fund in 1939		693,830.91
The taxes received by the City from occupied Harbour properties in 1939 totalled	$750,495.00	
Local improvement taxes paid by the Harbour Commissioners in 1939 totalled	128,954.21	
		$879,449.21

The Toronto Harbour Commissioners —continued

On account of bond refinancing the difference between the financing of 1936 and that of 1937 resulted in an annual saving of $285,302.44.

The net general and local improvement taxes paid by The Toronto Harbour Commissioners on Harbour lands are as follows:

Year	General	Local Improvement	Total
1912 to 1934..	$132,318	$1,221,237	$1,353,555
1935..	16,202	183,654	199,856
1936..	40,982	160,689	201,671
1937..	28,566	158,556	187,122
1938..	25,844	148,975	174,819
1939..	27,081	128,954	156,035
Total.	$270,993	$2,002,065	$2,273,058

During the last few years waterborne traffic has been marked by a phenomenal expansion which is directly attributable to the Harbour facilities, which provide adequate accommodation to the largest vessels plying on the Great Lakes.

The Toronto Harbour Commissioners —continued

The following is the waterborne trade of the Harbour from 1921 to 1939:—

Year	Tons	Year	Tons
1921.....	248,363	1934.....	3,125,144
1931.....	2,121,066	1935.....	3,020,132
1932.....	2,270,448	1936.....	3,382,858
1933.....	2,500,100	1937.....	3,703,881
		1938.....	3,801,025
		1939.....	3,589,561

At the Western Section, between Dowling Avenue and the Humber River, 217 acres have been reclaimed. It is known as Sunnyside Beach, and contains a bathing pavilion with accommodations for 7,700 bathers at one time; adjoining this is a swimming pool 300 feet long by 75 feet wide, with a depth grading from 2½ feet. It has a capacity of 750,000 gallons continuously heated chlorinated and filtered. There are also amusement devices, games, rides, boating, canoeing, dancing and refreshments.

Another important part of the development work was the construction of Toronto's Cross Town Waterfront highway which extends from the Humber River on the west to Leslie Street on the east, a distance of seven miles, with a minimum pavement width of fifty feet. The foresight in constructing this highway, made possible by

The Toronto Harbour Commissioners —continued

the waterfront development, is amply demonstrated by the many thousands of motor cars using it daily. It provides not only a fine entrance to the City from the west but also an easy means of access to downtown Toronto for tourists and the motoring public generally.

The general taxes received by the City from industries located on the lands created by the Harbour development, the benefits arising from the ever-increasing waterborne trade of the Harbour and the impetus given thereby to the commerce of the City, apart from the saving to the citizens by reason of low cost transportation, are tangible results of the development. These, as a whole, cannot be rated in mere dollars and cents but they are, nevertheless, of incalculable value to the City at large.

In 1937, the City Council decided to construct two municipal airports, one a combined airport and seaplane base on Toronto Island and the other an all-weather airport at Malton, and requested the Harbour Commissioners to construct and operate them for and at the expense of the City.

The Island Airport, mainly reclaimed from the Inner Harbour and Lake, contains 177 acres, 150 of which have been sodded; there are four

The Toronto Harbour Commissioners
—continued

flightways 3,000 feet long and 500 feet wide, along the centre of two of which is a paved runway 150 feet wide for the full length of the flightway; it is equipped with a modern Administration Building, lighting system, hangar, seaplane ramp, low dock and float.

At Malton, 1,444 acres were acquired for airport and zoning purposes, the objective being to use the zone-controlled areas for industrial development in connection with the manufacture of aircraft, subject to the regulations of the Department of Transport as to height of structures, etc. The National Steel Car Corporation Limited has purchased some 108 acres, on which a large plant is now in operation, with an extension in progress. In addition to this, a large plant has been constructed by Canadian Associated Aircraft Limited on a 15-acre site purchased by this company.

Work on the Airport proper (which contains 693 acres) was commenced in August, 1937, and in August, 1938 the first Trans-Canada airplane landed at the Airport. Provision has been made for flightways covering eight points of the compass 1,000' in width and 9,000' long, with permissible paved runways 5,000' in length and upwards. At the present time

The Toronto Harbour Commissioners —continued

three flightways have been constructed 3,000' long and 500' wide—two of which are paved 150' wide for a distance of 3000', the third runway being grass.

This Airport is equipped with the most modern lighting system, meteorological offices, radio, etc., and on November 1st, 1938, the control of same was taken over by the Trans-Canada Air Lines until the end of 1940. A modern Administration Building was constructed and completed in the Fall of 1939.

The Trans-Canada Air Lines have leased 2½ acres adjoining the landing field and have erected thereon a hangar.

This Airport is on the main route of the Trans-Canada Air Lines and mail and express planes are now flying on a regular daily schedule through Toronto from Montreal to Winnipeg, Vancouver and return.

The Island Airport has been officially named by the City Council "Port George VI, Toronto Island Airport", in commemoration of the historic visit to Canada, during May of last year, of His Most Gracious Majesty King George VI, accompanied by His Queen Consort, Her Majesty Queen Elizabeth.

The Toronto Harbour Commissioners —continued

The Malton Airport, also has been officially named "Bishop Field, Toronto Airport, Malton", in honour and recognition of the war-time service of Air Marshal William A. Bishop, V.C.

TORONTO TRANSPORTATION COMMISSION

The Toronto Transportation Commission was incorporated by an Act of the Ontario Legislature assented to June 4th, 1920. The Act of Incorporation is 10-11 Geo. V, 1920, Chap. 144, which may be briefly summarized as follows:

(1) The Commission consists of three members, appointed by the City Council to serve for three years, and to be paid such salary or other remunerations as may be fixed by Council.

(2) No member of the City Council is eligible for appointment as a member of the Commission.

(3) The Commission is entrusted with the control, maintenance, operation and management of:

(a) The Toronto Railway Company upon its acquisition by the City.

(b) The Civic Lines.

(c) Any other street railways that the City may from time to time acquire.

(4) The City may at any time entrust to the Commission the construction, control, maintenance, operation and management of lines of motor buses, or subways, or of tubes, or of any method of underground or local overhead transportation (This was done by By-law No. 8564.)

Toronto Transportation Commission —continued

(5) To consider generally all matters relating to local transportation in the City of Toronto.

(6) To construct, control, maintain, operate and manage new lines of street railway.

(7) To fix such tolls and fares so that the revenue of the Commission shall be sufficient to make all transportation facilities under its control and management self-sustaining after providing for such maintenance, renewals, depreciation and debt charges as it shall think proper.

(8) To requisition the City for money necessary to carry out its powers and duties. But nothing contained in the Act of Incorporation shall divest the Council of its authority with reference to providing money for such purposes.

(9) The Commission to furnish the City annually an Operating and Financial Statement, and keep its books at all times open for inspection by the Audit Department of the City.

The fares chargeable by the Commission are as follows:

Fares for Adults:

Four tickets for 25 cents; cash fare, 10 cents.

Toronto Transportation Commission —continued

Fares for Children:

(a) Infants "in-arms", free. Children, not over 51 inches in height: Cash, three cents; ten tickets for 25 cents.

(b) School Children's tickets: School Children's tickets are sold at the rate of seven for 25 cents, and are for the use of all school children under 16 years of age. The tickets are good only going to and from school, between the hours of 8 a.m. and 4.30 p.m., and are not valid on Saturdays, Sundays or on other days when schools are closed.

Free transportation privileges on the street cars are provided to the members of the Amputations Association of the Great War and to blind people in Toronto receiving passes through the Canadian National Institute for the Blind.

Free transfers are issued between all street cars within the City limits and between street cars and "feeder" buses within the City limits.

To protect the City's huge investment and its rights to control public transportation in its streets, the City authorized the Commission's acquirement of control of the principal motor coach routes radiating from the City and of

Toronto Transportation Commission —continued

motor coach sight-seeing services in the City. These services and other special motor coach and motor launch services are operated by the Commission under the name of Gray Coach Lines, Limited. With its routes extending from the United States border at Niagara Falls and Buffalo to Toronto and thence to Muskoka Lakes, North Bay and other northern Ontario resorts, Gray Coach Lines' motor coach services have made Toronto the hub of highway travel and have developed a profitable tourist business for Toronto. Complete information in reference to the services of Gray Coach Lines and connecting motor coach services to all points in Canada and the United States is available at the Motor Coach Terminal, 602 Bay Street, or by telephoning ADelaide 4221.

Several municipalities adjacent to Toronto have arranged to have their local public transportation services managed by the Toronto Transportation Commission. This arrangement is advantageous to these municipalities and does not impose any financial responsibility on Toronto or on the Commission. These include street railway services in York Township, Weston, and the municipalities between Toronto and Richmond Hill on north Yonge Street; and

Toronto Transportation Commission —continued

bus services in York Township, Forest Hill Village, Leaside and East York Township.

The Toronto Island Ferries, now owned by the City of Toronto, have been managed by the Transportation Commission since February 1927. Passenger and freight service is supplied by a fleet of ferry boats and freight craft between the mainland and the three Islands—Centre Island, Hanlan's Point and Ward's Island. The one-way trip to any of these points is made in approximately fifteen minutes.

The ferry service is managed by the Commission under an agreement with the City. The finances of this service are entirely separate from those of the other service managed by the Commission under its Act of Incorporation.

The rates of fare are the same on the ferries as on the City street car system, the same tickets being good on either service, but no transfer tickets are issued between the ferries and the street cars.

This is the eighteenth year of the Commission's operation of the various transportation services. In the essential quality of Safety the Commission has a notable record. Well over four and one-half billions of passengers have travelled

Toronto Transportation Commission —continued

on the street cars, buses, motor coaches, ferries and motor launches operated by the Commission. Not one passenger has been fatally injured.

The Commission operates 926 electric street cars and 80 electric service cars. The street cars travel a distance of approximately 22,000,000 miles in service during a year. The 257 buses and motor coaches travel 7,000,000 miles yearly. The fleet of five ferry boats carry nearly 2,000,000 passengers during the Summer. Approximately 3,000 people are regularly employed by the Commission.

The Commissioners are as follows:

Wm. C. McBrien, Chairman.

Wm. Croft, Vice-Chairman.

W. G. Russell, Commissioner.

H. C. Patten, General Manager.

Offices: 35 Yonge Street, Telephone, Waverley 7611.

TORONTO HYDRO-ELECTRIC SYSTEM

The Toronto Hydro-Electric System is owned by the City of Toronto, and is operated for it by the Toronto Electric Commissioners.

The Toronto Electric Commissioners, created under Provincial Statutes (1 Geo. V, Chap. 119, Sec. 6), are empowered to carry out the provisions of the Public Utilities Act of Ontario (R.S.O., 1927, Chap. 249) in so far as such Act applies to the City of Toronto.

The present members and officers are:

Commissioners

Joseph Gibbons (Chairman).
Kenneth A. Christie, K.C. (Vice-Chairman).
Ralph C. Day (Mayor).

Officers

E. M. Ashworth, General Manager.
H. J. MacTavish, Secretary.

Offices

14 Carlton Street: Telephone, Ad. 2261.

The Toronto Hydro-Electric System is one of the largest municipally-owned distribution systems in the world, and distributes power at unusually low rates.

Toronto Hydro-Electric System

Alternating Current Light and Power Rates

(This Schedule does not include rates for service outside the City Limits.)

Residence Service

Alternating Current—25 Cycles—120 Volts.

Monthly Demand Charge:

Three cents per 100 square feet floor area, per month. (Minimum 1000 sq. ft. Maximum 3000 sq. ft.)

Energy Charge:

One and eight-tenths cents per Kilowatt-hour up to equivalent of 3 Kilowatt-hours per 100 sq. ft. floor area charged.

One cent per Kilowatt-hour for all additional consumption.

Prompt payment discount 10%. Minimum monthly bill 75c. (net).

Commercial Lighting Service

Alternating Current—25 Cycles—120 Volts

Billing Demand—by Meter or 100% Installed Capacity.

Three cents per Kilowatt-hour for equivalent of first 90 hours' monthly use of Billing Demand.

Toronto Hydro-Electric System —continued

One cent per Kilowatt-hour for equivalent of 90 hours' monthly use of Billing Demand. One-third cent per Kilowatt-hour for all additional consumption.

Prompt payment discount 10%.

Minimum monthly charge 75c. (net) per Kilowatt of Billing Demand. Minimum monthly bill 75c. (net.)

Power Service

Alternating Current—25 Cycles—3 Phase 550 Volts. Billing Demand—by Meter or 100% Installed Capacity. Alternating Current—25 Cycles—3 Phase—208 Volts (See Note).

Monthly Demand Charge:

One dollar and ten cents per Kilowatt for the first 7½ Kilowatts of Billing Demand.

Ninety cents per Kilowatt for all additional Billing Demand.

Energy Charge:

Two cents per Kilowatt-hour for equivalent of the first 50 hours' monthly use of the Billing Demand.

One cent per Kilowatt-hour for equivalent of the second 50 hours' monthly use of the Billing Demand.

One-third cent per Kilowatt-hour for equivalent of the next 300 hours' monthly use of the Billing Demand.

Toronto Hydro-Electric System —continued

One-sixth cent per Kilowatt-hour for all additional consumption.

Prompt payment discount 10%.

NOTE—Alternating Current 25 Cycles—3 Phase—208 Volts Service is supplied in areas where 4 wire A.C. network is installed.

Direct Current Service is supplied in a restricted down town area only.

Rates for Direct Current and special classes of service, such as Flat Rate Water Heaters, Hall Lighting, Sign Lighting, etc., may be obtained on application.

The following statistics, based on the operations during 1939 are of interest.

Kilowatt-hours sold	1,117,000,000
Peak load	383,536 H.P.
Total Revenue	$13,300,000.00*
Number of consumers at Dec. 31, 1939	195,270
Total System-owned Assets at Dec. 31, 1939	$49,500,000.00*
Net bonded debt at Dec. 31, 1939	$10,429,614.37
System-owned Assets exceed liabilities by	$36,000,000.00*
Equity in H.E.P.C. Sinking Fund	$16,197,463.50

*Estimated.

TORONTO OLD AGE PENSIONS BOARD

(Appointed under Old Age Pensions Act, Ontario, R.S.O. 1937, Chapter 314)

The Board consists of five persons; three appointed by the Province and two by the Municipality.

Its duty is to receive all applications for Old Age Pensions and Blind Pensions made by residents of the City of Toronto; and forward them, together with their recommendations, to the Old Age Pensions Commission of Ontario.

MEMBERS OF THE BOARD

Provincial Appointees:

Arnold Ivey, Chairman.

Robert Ferguson

Mrs. Herbert L. Conlin

Municipal Appointees:

Ald. C. M. Carrie, Vice-Chairman.

Zeph Hilton

Secretary's Office

Stewart Building, 149 College Street, Toronto.
Telephone, Waverley 1082.

The actual number of Toronto residents receiving Old Age Pensions at December 31,

Toronto Old Age Pensions Board—continued

1939 was 11,531. The amount paid out in Pensions during 1939 was $2,531,636.52.

At December 31, 1939, 241 persons in Toronto were receiving Blind Pensions, and the amount paid on their behalf totalled—$53,816.93.

The City is required to provide office space, staff, etc., and these for administration purposes are attached to the Department of Public Welfare.

MOTHERS' ALLOWANCES TORONTO BOARD

(Appointed in pursuance of the Mothers' Allowances Act, R.S.O., 1937, Chap. 313.)

The Board consists of five persons; three appointed by the Province and two by the Municipality.

Its functions are to receive and consider applications for allowances under the Act made by residents of the City of Toronto and to recommend to the Ontario Mothers' Allowances Commission the payment of allowances to those considered eligible.

A monthly allowance may be paid towards the dependent children of a mother with at least one child under sixteen years of age in her care, who is

(a) a widow, (b) or a mother with a totally and permanently incapacitated husband, (c) or a deserted mother, whose husband has not been heard of for at least three years, (d) or a foster mother, who is married or unmarried and has resident with her one or more orphan children and has not adequate means to care properly for them without the assistance of an allowance. In all cases the applicant must be a British subject by birth or naturalization or is the widow or wife of a British subject and has resided in the Province of Ontario for at least two years.

Mothers' Allowances Toronto Board —continued

The Members of the Toronto Board are as follows:

Provincial Appointees

Mr. W. O. McTaggart, Chairman.

Mrs. Angus Gordon, Vice-Chairman.

Mrs. David Dunkelman.

Municipal Appointees

Mrs. G. D. Kirkpatrick.

Mr. John Dillon.

THE BOARD OF TRADE OF THE CITY OF TORONTO

The Board of Trade of the City of Toronto was organized in 1844 and incorporated by an Act of the Legislature of the late Province of Canada in 1845.

The principal objects of the Board are:

(a) To promote and/or support such measures as, upon due consideration, are deemed calculated to advance and render prosperous the lawful trade and commerce and to foster the economic and social welfare of the City of Toronto in particular and of the Province of Ontario and of the Dominion of Canada in general.

(b) To promote the establishment and maintenance of uniformity in the business of its members and those dealing with them.

(c) To adjust, settle and determine controversies and misunderstandings between persons engaged in trade.

(d) To advance in all lawful ways the commercial interests of the members of the Board generally and to secure the advantages to be obtained by mutual co-operation.

The Board of Trade of the City of Toronto —continued

(e) To stimulate in such way as may be determined from time to time social intercourse among the members of the Board.

The Board is one of the largest commercial organizations in the British Empire and functions through a Council of nineteen elected members and a number of Committees, the principal of which are Insurance Legislation, Social Problems, Taxation, Transportation and Customs, and Northern Ontario. The Board also operates fourteen Trade and Professional Branches, namely, Air Conditioning Industries, Book Publishers, British Empire Overseas, Dairy, Engineering, Fuel Dock, Funeral Directors, Grain and Grain Products, Lumbermen, Motion Picture, Oil Heating, Produce, Provision Trade and Toronto Laundry-Owners' Exchange, and has affiliated with it the Fuel Protection Association. The Board has direct representation on the Advisory Vocational Committee of the Board of Education, Canadian National Exhibition Association, Federation for Community Service, Ontario Safety League, Toronto Harbour Commission, Toronto Industrial Commission and Traffic Advisory Board.

Commodious Dining and Lounge Rooms and well-equipped offices are maintained for the

The Board of Trade of the City of Toronto —continued

benefit of the members and for the prosecution of the work of the Board.

The Board of Trade Club, open to members of the Board of Trade, meets weekly on Mondays at 5.30 p.m. for dinner meetings, from October 1st to April 30th.

the primary objects of the Club are:

(a) to promote good fellowship amongst members of the Board of Trade;

(b) to educate members to a fuller realization of their responsibilities as members of the Board of Trade;

(c) to pave the way to a better understanding of the City's social and economic needs; and

(d) to make members better citizens of the Dominion of Canada and the Commonwealth of British Nations.

The Young Men's Section comprises young men between the ages of eighteen and thirty. The Section meets fortnightly, on Tuesdays, at 6.00 p.m. for dinner meetings, from October 1st to April 30th. The members are granted limited privileges in the Board of Trade.

The objects of the Young Men's Section are:

(a) to educate members to a better understanding of the importance—in civic and national

The Board of Trade of the City of Toronto —continued

life—of the Board of Trade and the Chamber of Commerce movement; (b) to co-operate whenever and however possible in the varied activities of the Board of Trade of the City of Toronto; (c) to enable the young business and professional men of the city to study and to co-operate towards the solution of current national and local problems; (d) to encourage and assist members to study, under competent direction, subjects of value in all phases of business; (e) to promote good fellowship amongst the young business and professional men of Toronto who are eligible for membership.

TORONTO INDUSTRIAL COMMISSION

The Toronto Industrial Commission was incorporated by Letters Patent under the Ontario Companies Act on 28th of December, 1928, and began active operations on the 13th of March, 1929. The Commission's objects are to secure industries for, and aid industries in, the City of Toronto and surrounding territory and to give publicity to the advantages of the Toronto area for business and manufacturing purposes.

During 1939 the Commission co-operated in the establishment of fourteen industrial developments in the Toronto area. Ten existing Toronto industries in 1939 were assisted in securing larger or more suitable manufacturing space, new lines to manufacture and given data on questions of obscure sources of materials, taxation and numerous other subjects.

Since the Commission began operations eleven years ago it has co-operated with a total of 176 industrial companies which have established in Toronto and suburbs. They have invested over $9,090,000 in plant and equipment, are employing 5,400 people, and are occupying more than 2,425,000 square feet of floor space.

In addition to the "direct" employment by the new industries, their operations have re-

sulted in substantial additional employment in other Toronto concerns supplying a wide variety of production materials and services to the new companies and their employees. It has been conservatively estimated that this "indirect" employment represents over 5,000 additional persons.

The employment provided is equal to the total industrial employment in many of Canada's smaller cities. Their coming has added "another" city to Toronto.

These new companies paid taxes of $34,372 in the City of Toronto in 1939 and purchased electric power and light to the value of $71,418.

The Commission has given assistance to many existing Toronto industries, co-operating with them in expansion plans, in securing new lines to manufacture, and in providing them with market and distribution data with regard to both domestic and export trade, and information on numerous other subjects, including sources of equipment and materials.

The Commission has taken an active part in submitting Toronto's facilities to the British and Canadian authorities for aircraft manufacture, Empire air training and the manufacture of war munitions.

Toronto Industrial Commission—continued

The Commission is the official Industrial Commission for the City of Toronto. Its Board of Directors is made up of representatives nominated by the City Council, the Board of Trade of the City of Toronto, the Toronto Branch of the Canadian Manufacturers' Association, the Toronto Hydro-Electric System, the Toronto Transportation Commission, the Toronto Harbour Commissioners and the Canadian National Exhibition Association.

THE TORONTO HUMANE SOCIETY

The Toronto Humane Society gives a twenty-four hour service, 365 days of the year for the relief of suffering animals. An average of 350 telephone calls per day are received, and during 1939 a total of 24,190 calls were made by the Society's trucks, during which 11,775 dogs and 16,927 cats were brought to shelter. 7,247 emergency calls (sick and injured animals) were responded to and 1223 complaints regarding cruelty were investigated.

Constant inspection is maintained over the conditions under which animals for human consumption are handled and killed. During 1939 this entailed the examination of 100,290 cattle, sheep, swine and poultry. The transportation of food animals and birds is frequently carried on with great cruelty and it is an important part of the Society's work to keep constant watch on those engaged in this work and thousands of pamphlets are distributed to drivers of cattle trucks and those engaged in transportation of animals, giving advice as to the most humane way of doing the work.

Humane education of children is one of the most vital departments of the Society's work, as it is a well-known fact that a child who is taught kindness to animals will not go far wrong in his behaviour towards his fellow-men.

The Toronto Humane Society—continued

The Society exists to help all animals that are suffering, that are wounded, lost, deserted, hungry or that must be mercifully put to death.

President—Hon. R. C. Matthews.

SOCIAL SERVICES OF TORONTO

Every community has its problems of social break-down. As the community grows the problems of indigence, dependency and illness grow with it. With the increasing complexity of modern city life, health and welfare services have become a recognized responsibility of civic government. Private philanthropic effort continues to care for groups and individuals who are not served by public organizations. Public assistance is concerned with individuals as units of society and tries to supply those in need with a similar or uniform equipment necessary to life; while private agencies try to regard individuals as unique personalities, and aim at increasing, in each individual, the inner capacity of living well.

Because of the pressure of events during the past few years there has been a marked trend toward greater co-ordination of both public and private effort in an endeavour to eliminate overlapping and make for more effective and economic service in the interests of people served. The first and simplest mode of co-operation was in the direction of eliminating overlapping, through a system of registration provided by the Social Service Index. Then followed the attempt to

Social Services of Toronto—continued

unite all voluntary agencies in a common appeal for the support of the public, through community chests or federations for community service. Of these, three were formed in Toronto: Federation for Community Service, Federation of Catholic Charities and the United Jewish Welfare Fund. Seventy important agencies are now included in these federations, but a number still continue their own programmes outside the federation group. Out of the federations there developed naturally the demand for co-operation in policy and action which led, in 1937, to the formation of a Welfare Council of Toronto and District. Within this Council any form of organized effort, whether public or private, is intended to have its place, and thus the Council can serve as a veritable parliament of agencies, constantly deliberating and acting in the interests of greater well-being, utilizing the best thought of the community and focusing its goodwill and its resources with the minimum of waste or friction.

A classified list of all the welfare services in Toronto with a brief statement of their purpose is available in the Directory of Welfare Resources issued by the Welfare Council. The co-ordinating agencies are as follows:

Social Services of Toronto—continued

Federation for Community Service, Room 906, 100 Adelaide St. West. Telephone: Ad. 7476. General Secretary, A. D. Hardie.

Federation of Catholic Charities, 67 Bond St. Telephone: Wa. 2022. Director of Charities, Rev. F. H. Gallagher.

Social Service Index, Room 607, 210 Dundas St. West. Telephone: Ad. 6304. Executive Secretary, Miss Mary Clarke.

Welfare Council of Toronto and District, Room 605, 210 Dundas St. W. Telephone: Ad. 8505. Executive Secretary, Miss Frieda Held.

United Jewish Welfare Fund, 21 Dundas Square. Telephone: Ad. 5829. Executive Director, Martin M. Cohn.

TORONTO AND THE TELEPHONE

The telephone needs of Toronto and the adjoining communities are served by the Bell Telephone Company of Canada.

The Bell Telephone Company of Canada was incorporated in 1880 and, in Toronto, absorbed the Toronto Telephone Despatch Company, which had been serving Toronto citizens since 1879.

Sixty years later at the start of the present year the Toronto exchange has grown to one of over 215,000 instruments—the largest by far of any exchange in Canada.

More long distance calls are placed from Toronto on the average day than from any city in the Dominion. Of the world's metropolitan centres—those of more than 750,000 population—Toronto leads in its proportion of residence telephones per hundred inhabitants. Thus, Toronto holds the spotlight in Canada as regards telephone development and usage.

This is the Diamond Jubilee year of the Bell Telephone Company of Canada and the company is proud of its record of service to the citizens of Toronto.

Valuable information about the City itself may be found in the Blue Pages of the Telephone Directory.

Toronto and the Telephone—continued

Executive officers of the Company are C. F. Sise, President; P. A. McFarlane, J. H. Brace, F. Johnson, Vice-Presidents; H. G. Young, General Manager, Western Area, Toronto, and E. A. Rolph, Toronto Manager.

Office: 76 Adelaide Street West, Telephone Waverley 3911.

Weather Records—continued
1840-1939

Warmest day, 9th July, 1936. Mean temperature 91.6 degrees.

Highest registered temperature 105.0 degrees on the 9th July, 1936.

Coldest day, 8th February, 1934. Mean temperature of 16.0 degrees below zero.

Lowest registered temperature, 26.5 degrees below zero on 10th January, 1859.

Warmest year, 1921, mean temperature, 49.9 degrees.

Coldest year, 1875, mean temperature, 40.6.

Heaviest day rain, 3.88 inches on 27th July, 1897.

Heaviest day snow, 16.2 inches on March 28th, 1876.

Heaviest fall of snow in any winter, 123.5 inches in 1869-70.

Least fall of snow in any winter, 25.7 inches in 1932-33.

THE CANADIAN RED CROSS SOCIETY

The Canadian Red Cross Society holds its charter under the Act of Incorporation passed by the Parliament of Canada in 1909; a subsequent amendment of its charter obtained from the Dominion Parliament enlarged the scope of its work to include the services mentioned in the covenant of the League of Nations—"the promotion of health, the prevention of disease and the mitigation of suffering, both in peace and war."

The Central Council, which is the governing agent of the Society, is a representative body composed of two members elected by each Provincial Division, and of fifteen "members-at-large", elected by the eighteen Provincial representatives. Any person may become a member of the Society by paying an annual subscription of $1 to the Branch.

The Canadian Red Cross Society is composed of a mighty army of volunteer workers entrusted with the expenditure of five million dollars, subscribed voluntarily by the people of Canada for Red Cross purposes.

WAR ACTIVITIES

On September 14, 1939, authority was given by the Central Council for the setting up of a

special War Service executive with standing committees as required for carrying out the special duties of the Society in time of war.

The Canadian Red Cross Base Hospital No. 1, with bed accommodation for six hundred men and officers, is being built and equipped at a cost of approximately $750,000, by the Canadian Red Cross Society, and will be staffed, operated and maintained by the Department of National Defence through the Canadian Army Medical Corps. The location and setting, just outside the Village of Taplow, about twenty-five miles from London, constitute one of the beauty spots of England.

All supplies overseas are handled under the supervision of the London Advisory Committee and are available first of all, for the benefit of Canadians in camps, and secondly, for Canadians in hospital.

The Toronto Branch has instituted a "blood donor service" operated through the facilities of the University of Toronto for the collection of blood to be made into a serum to be used by the British Government for the benefit of wounded British and Canadian soldiers.

The Beaver Club, within a stone's throw of Canada House, between Trafalgar Square and

the Mall, is a centre to which Canadian soldiers may come when on leave in London. While not a Red Cross project, the Club has been made possible by the Canadian Red Cross Society, guaranteeing its finances up to $50,000.

The first of the Maple Leaf Clubs, operated on a similar basis to those of the last war, has been opened by the Canadian Red Cross Society, where meals and accommodation are provided at the moderate cost of fifty cents for bed and breakfast, to our Canadian soldiers on leave in London.

Prisoners of War

The Canadian Red Cross Society has been appointed to be responsible for sending parcels of food to Canadian prisoners of war, regularly six times a month. These parcels will be sent from England, so as to avoid the perils of ocean transportation for these food supplies upon which the life and health of prisoners depend. Parcels are being sent by the Canadian Red Cross to the two Canadians now imprisoned in Germany.

THE CANADIAN RED CROSS SOCIETY DOES NOT SELL ITS SUPPLIES—It distributes, free of charge, the gifts entrusted to it by its supporters.

The Canadian Red Cross Society—continued

THE CANADIAN RED CROSS SOCIETY'S WORK IS CARRIED OUT BY AN ARMY OF VOLUNTARY WORKERS.

ALL RED CROSS FUNDS ARE AUDITED.

NATIONAL OFFICERS

Norman Sommerville, Esq., K.C., Toronto, Chairman of Central Council, and Executive Committee.
